WORKING IN PARTNERSHIP

Work with us.

Talk to us. Partner with us. Sponsor the work. Between us we bring lived experience, twenty years of homicide investigation, rural and equestrian expertise, and the voices of families who were not listened to the first time.

For families

If a death in your family was closed too soon, we will listen, review what happened, and put your questions to the people who can answer them. Free, always.

For professionals

Police, coroners' staff, safeguarding leads, vets, yards and equestrian bodies: book Beyond the Standard Response, or ask us to speak at your event.

For organisations ready to make change

Sponsor a programme, sign Katie's Pledge, put the escalation map in front of your members, or back the Justice Beyond the Gate campaign.

We won't look away again.

We will listen. We will stay. We will take the reins of change.
